

ILLINOIS ASBO PAST PRESIDENTS, OFFICERS & DIRECTORS

The status of any organization and its present condition is always a function of those who have come before i.e., have been in leadership positions. Since the founding of Illinois ASBO in May 1951, the profession of school business management in Illinois has grown and prospered because of those listed below. While Illinois ASBO has many leadership opportunities available to its members i.e., professional development committee's, chairs, regional groups, standing committees, task forces, and other groups, the premiere leadership role is that of President. Those listed below distinguish themselves while functioning as President and carry the title and wear the past president pin with pride. Any success experienced by Illinois ASBO today and/or into the future is because of each and every one.
